The initial step in our landscape design process is the on site consultation. One of our landscape designers will come to your home or business and talk to you about your landscape wishes. During the visit, our designer will evaluate your current landscape, discuss your ideas (preference of plants, styles, likes and dislikes), establish your budget, and obtain a copy of your site survey.

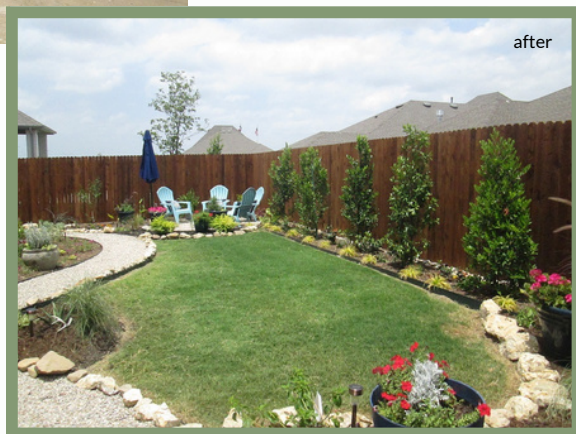

THE INITIAL SITE VISIT WILL BE BILLED AT \$95 PER HOUR

*There is a minimum charge of 1 hour. Any time over one hour for on site consulting will be charged pro rata.
All consultation fees are non-refundable.*

Ask us about travel fees if your site is beyond 30 minutes from Weston Gardens.

If a site survey is not available, additional time will be required for necessary measurements.

Following the initial site visit, your personal landscape designer will return to our office and create your customized landscape design. Your design will depict accurate plant counts and locations. Also, your plan will be drawn to scale in order to allow for an accurate estimate.

When your designer is on site, they can give you a close approximation of the design time required to complete your design.

DESIGN TIME WILL BE BILLED
\$85 PER HOUR

Then the fun begins! After your design is completed, your designer will schedule a review. During the review, you will see your plan and make any additions/changes.

Following the review, we will create an estimate. Upon approval of the estimate, we will schedule our crew to install your beautiful new garden.
